

Science and Public Policy

VOLUME 46 NUMBER 1 FEBRUARY 2019

Contents

Main Articles

- Innovation intermediaries and performance-based incentives: A case study of regional innovation poles **1**
Margherita Russo, Annalisa Caloffi, Federica Rossi and Riccardo Righi
- Environmental science and policy: A meta-synthesis of case studies on boundary organizations and spanning processes **13**
Danielle K. Jensen-Ryan and Laura A. German
- Innovation system policy analysis through system dynamics modelling: A systematic review **28**
Mauricio Uriona and Sara S. (Saartjie) Grobbelaar
- The funnel model of firms' R&D cooperation with universities **45**
Sara Fernández-López, Nuria Calvo and David Rodeiro-Pazos
- A knowledge-based perspective on system weaknesses in technological innovation systems **55**
Johan Frishammar, Patrik Söderholm, Hans Hellsmark and Johanna Mossberg
- Research funding's 'endorsement effect' on scientific boundary work and research production: Government legitimization of alternative medicine **71**
Ryan Whalen
- From pure science to participatory knowledge production? Researchers' perceptions on science–policy interface in bioenergy policy **81**
Sanna-Riikka Saarela
- China's patent promotion policies and its quality implications **91**
Cheryl Xiaoning Long and Jun Wang
- Performance-based research funding in EU Member States—a comparative assessment **105**
Thomas Zacharewicz, Benedetto Lepori, Emanuela Reale and Koen Jonkers
- The contract between science and society: A South African case study **116**
Michael Kahn
- Research network emergence: Societal issues in nanotechnology and the center for nanotechnology in society **126**
Jan Youtie, Philip Shapira, Michael Reinsborough and Erik Fisher
- Policies and patenting to stimulate the biotechnology sector: Evidence from The Netherlands **136**
Peter van Dongen, Hester Tak and Eric Claassen
-

Perspective

- Practical tips to establish an actionable science portfolio for climate adaptation **148**
Gustavo A. Bisbal
-

Letter to the Editor

- Williams and Morrone misunderstand and inadvertently support my argument: Mexico's SNI systematically steers ecological research **154**
Mark W. Neff
-

Corrigendum

- Setting up a dynamic framework to activate gender equality structural transformation in research organizations **159**
Evanthia Kalpazidou Schmidt and Marina Cacace
-
