Foreword	vi
Preface	vii
Acknowledgements	ix
Contributors	x
Reviewers	xi
<b>INTRODUCTION</b>	1
<b>THE BASICS OF RESEARCH</b>	
1 Science - the Pursuit of Knowledge	3
2 Research Ethics	8
3 Ethics in Human and Animal Experiments	17
4 Experimental Design	25
<b>LITERATURE RESOURCES</b>	
5 Locating Literature	36
6 Searching, Publishing and Citations	50
<b>THE LABORATORY</b>	
7 Safety in the Laboratory	64
8 Hazardous Chemicals	71
9 Common Apparatus	80
10 Laboratory Glassware	94
11 Basics of Solution Chemistry	104
<b>PHYSICAL UNITS AND MEASUREMENTS</b>	
12 Physical Quantities and Units	121
13 Reporting Significant Figures	128
14 The Science of Measurements	139
15 Calibration of Scientific Equipment	150
<b>RECORDS AND WRITING</b>	
16 The Laboratory Notebook and your Supervisor	159
17 Constructing Tables	163
18 Writing your Thesis	169
Appendix I      Free Sources of Information	176
Appendix II     Uncertainty Evaluation	181
Appendix III    Common Scientific Abbreviations	186
Index	189
