

SRI LANKAN JOURNAL OF APPLIED STATISTICS

Volume 10

2009

SPECIAL ISSUE: International Statistics Conference

A Very Applied Approach to Risk: *J. Henstridge, 1-7*

Experiences in Selling Mathematics and Statistics to the Cricketing World: Market Penetration of the Duckworth-Lewis Method: *T. Lewis, 9-28*

Discriminant Analysis: A Powerful Classification Technique in Predictive Modelling: *G. Fernandez, 29-41*

Prognostic Models with Competing Risks: Methods and Application to Prostate Cancer Data: *N.P.K.S. Jayawardana and M.R. Sooriyarachchi, 43-64*

Time to Event Analysis of Multiple Failure Modes: An Application to Mobile Phone Failures: *K. Galappaththi, 65-83*

A Review of Block Designs with Neighbour Effects: *N.R. Abeynayake and S. Jaggi, 85-103*

Assessing the Impact of Exchange Rate Volatility on Agricultural Exports: Case of Desiccated Coconut Industry in Sri Lanka: *B.M.D.P. Bandara, U.K. Jayasinghe-Mudalige, K.V.N.N. Jayalath and P.M.E.K. Pathiraja, 105-118*

A Monte Carlo Simulation Study of the Properties of Residual Maximum Likelihood (REML) Estimators for the Linear Gaussian Mixed Model: *K. Nadarajah and M.R. Sooriyarachchi, 119-136*

Optimal Combined Estimators for Population Parameters with Known Prior Information: *A. Laheetharan and P. Wijekoon, 137-152*

Laguerre Series Expansion for the Probability Density Function of Sum of Independent Random Variables Defined over $[0, \infty)$: *U. Amarakone and N. Ekanayake, 153-166*

Using Cointegration for Stock Market Investment: An Application in a Sri Lankan Context: *C.L. Fernandopulle, C.D. Tilakaratne and H.A.S.G. Dharmarathne, 167-186*

Forecasting Exchange Rates Using Artificial Neural Networks: *N.V. Chandrasekara and C.D. Tilakaratne, 187-201*

A Fractional ARIMA Model for the Daily Spot Crude Oil Prices of the Organization of Petroleum Exporting Countries (OPEC): *W.J.R.M. Priyadarshana and C.D. Tilakaratne, 203-216*

Long Term Co-dependencies and Long Run Non Periodic Co-cycles among Major Oil Indices: A Fractional Time Series Approach: *W.J.R.M. Priyadarshana and C.D. Tilakaratne, 217-227*

Balancing Disclosure Risk with Data Quality: *A. Ramanayake and L. Zayatz, 229-236*

Estimating Privately held Information Using Trading Volume: Predicting the Future Price Movements to Reduce Investor Risks: *C. Fonseka and L. Liyanage, 237-250*

On Estimation of Autoregressive Conditional Duration (ACD) Models based on Different Error Distributions: *D. Pathmanathan, K.H. Ng and S. Peiris, 251-269*

Instructions to Authors, 271
